

### GENERATE EARLY DEAL FLOW ON ENERGY OPPORTUNITIES IN REAL-TIME

EnergyIQ is an industry-specific module that connects our ABX platform to emerging energy opportunities before they happen.

**We analyze thousands of data points everyday to bring you the most up-to-date sales intelligence on upcoming oilfield projects.**

Get insights into the entire project lifecycle from pre-spud to facilities construction so you can reach the identified decision makers at the perfect time.

**35-50% of B2B sales go to the vendor that reaches out first.**

Use EnergyIQ to know who's ready to buy before your competition so you can beat them to the punch every time.

### FEATURES:

- Use our AI-driven predictive markets & product tags to target high-value accounts in your addressable market
- Get daily notifications on oilfield operations and new leads:
  - Well Licensing
  - Drilling & Completions Activities
